

Big Break™

Hydraulic Breaker

FEATURES

- Smart, efficient design – only 2 moving parts
- Power-to-weight balance for efficient breaking
- Replaceable tool bushings for longer life
- Adjustable blow speed improves efficiency
- Adjustable oil flow
- Low noise level for use in city environment
- Quick change working steel for low cost maintenance
- Can be equipped for underwater use
- Gas charged to maximize efficiency

ONE-PIECE CONSTRUCTION

Internal component is made from one solid billet of steel and milled to a high tolerance. This provides for a high quality product with a longer life span and low maintenance.

Without Breaking the Bank...

The Big Break Hydraulic Breaker makes quick work out of tough situations. The smart and efficient design provides a workhorse with only 2 moving parts. Vibration and shock are controlled by shock absorbing polymers, minimizing machine wear and sound while improving operator comfort level. Easily smash through concrete, even on an incline, with the hardest hitting breakers in their respective impact energy classes.

- Only 2 moving parts
- Only 1 grease fitting
- Low recoil and minimal hydraulic pressure spike
- Unique trapezoidal shock wave for greater breaking power
